

3E's & 3P's

Photographic Assignment

Elements of Photography: Line, Shape, Form, Space, Value, Texture, and Colour

Principles of Photography: Emphasis, Balance, Unity/Harmony, Contrast, Movement & Rhythm, Pattern, Repetition

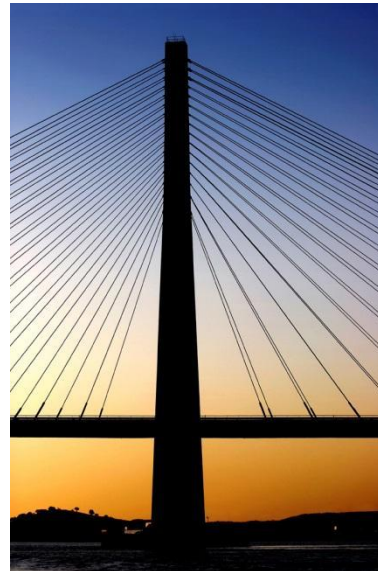

Requirements of the Project

- ☀ Photograph **three images** of what you think are good examples of the elements and principles of design.
- ☀ Each image that you photograph will focus on a combination of one element and one principle of design. **For example: Line (element) and Pattern/Repetition (principle).**
- ☀ Once used for a photograph, an element and principle cannot be the center of interest in another photo. **For example: If line and unity are used as the center of interest for a photo, they cannot be the focus of any other photo in the assignment.**
- ☀ Label photographs with the element and then the principle.

Examples of How to label your photographs:

Title: Colour & Unity/Harmony

Title: Line & Pattern/Repetition

- ☀ **Copy and paste** your images into a Google Slides presentation.
- ☀ Title each one using one element and one principle of design.
- ☀ Upload your completed Slides to the **Camera & Composition assignment** on **Google Classroom**
